BARRETT PINET ARCHITECTURE

Rose Bay, Sydney 1995-99

*Design, Building Applications, Construction Documents, Tendering*
Alterations and additions to a suburban bungalow in which two schemes were prepared in response to client requirements and conditions of Council approval. The first scheme added a second storey with master bedroom and study comprising a new attic bedroom level and extended ground and first floors. The second scheme extends towards the rear of the house increasing the size of the living areas and adds a fourth bedroom, study, new kitchen, bathrooms, laundry. The space within the new extended roof area has been designed as storage space and general family occasional use, extending the joinery character of the study below.
